

=====

A PERSONAL NOTE FROM THE CREATOR

=====

I dreamed of building this game myself. I spent months designing every mission, every character, every system. But the truth is—I don't know how to code. I don't have a team. I don't have money. And I don't have more time.

It hurts to admit that. It feels like failure.

But instead of letting this blueprint sit on my hard drive and die, I am giving it to the world. Free. No strings. No lawyers.

If you are a developer reading this: please take it. Use it. Make it better than I ever could. Just remember my name somewhere in your credits. That is all I ask.

I couldn't finish the journey. Maybe you can.

Thank you for reading.

=====

WHY THIS GAME CAN SUCCEED (FOR DEVELOPERS)

=====

I didn't just dream. I designed with purpose.

Every mission, every system, every character was built to answer two questions:

1. Will players love it?
2. Will it make money?

Here is why the answer to both is YES.

FOR PLAYERS (Satisfaction):

- 50 missions means 30-45 hours of gameplay – players feel they got value.
- Replay evolution system means no two playthroughs are the same – players keep coming back.
- Human Vex (not AI) with stress, roasting, and emotion creates a bond players rarely feel in tactical shooters.
- Squad lifeline (full squad wipe only) means every teammate matters – players care.
- 4-tier scalability means a player with a old laptop and a player with a \$5000 PC both get a great experience – no one is left out.

FOR REVENUE (Your Investment Return):

- Tactical shooters have a dedicated, paying audience. Games like Ready or Not, Squad, and Escape from Tarkov prove this genre sells.
- Replay evolution + multiplayer modes = long tail revenue. Players don't finish once and leave. They return.
- The fortress doctrine (5 rings, 4-5 km maps) is not just fun – it is efficient to build. One template, many variations. Lower development cost.
- Free design document means zero royalty obligation to me unless you choose to pay a success bonus. Your risk is minimal.

I could not build this game. But I studied the market. I studied what players want. This design is not just a dream. It is a business plan wrapped in a thriller.

Take it. Make it. Profit from it. And when players cry, laugh, and cheer – know that I already cried designing it.

Now go. Build something legendary.

1. EXECUTIVE SUMMARY Zero Protocol is a tactical stealth-action shooter in the spirit of IGI Origins but with a unique identity: gritty covert ops thriller, high emotional stakes, and a human-centric intelligence partner. The player leads a six-man squad (Hex Squad) through 50 missions across three acts, uncovering a shadow war economy embedded inside their own command chain. Failure occurs only on full squad wipe – never a single death. Core pillars: Stealth, Chaos Combat, Technics (Vex), and Brotherhood. The game is built on a no-visual-cut scalability system (4 hardware tiers), adaptive enemy AI that learns from player tactics, and a full voice communication system with squad banter, enemy chatter, and a human remote intel operator (Vex) who roasts, teases, worries, and makes mistakes. 2. GAME IDENTITY Property Value Title Zero Protocol Genre Tactical Stealth-Action Shooter Tone Gritty covert ops thriller, high emotional stakes Platform PC (scalable Low/Medium/High/Ultra) Camera Third-person tactical + optional ADS first-person Campaign 50 missions, 3 Acts Fail Condition ONLY full squad wipe – single death never ends the mission Core Pillars Stealth, Chaos Combat, Technics (Vex), Brotherhood 3. STORY CANON (Final – No Alternatives) Protagonist: Kian Raza – special ops commander, betrayed by his own mentor, Colonel Saren. Antagonist: The Ghost Council – a shadow war economy faction embedded inside military and government. Key members: General Aris Thorne – military executor, issued the false orders that got Kian captured. Minister Yuna Chen – political cover, controls funding and legal shield. The Curator – leader of Black Unit (“Silent Choir”), never shows face. Vex (Vera Eskander) – human remote intel operator (NOT AI). Former SIGINT analyst, framed for treason after her partner was killed by Ghost Council. She has a younger sister at risk. She is never trackable, and she roasts, teases, laughs, worries, and makes stress-based mistakes. The Betrayer Inside Command: Colonel Saren – Kian’s former mentor. Motive: his son is held hostage by Ghost Council. Confronted in Mission 47. 3-Act Structure Act Missions Theme Player Uncovers Act 1 – Broken Signal M1–M15 Trust building, escape, first betrayal hints Evidence that friendly command signatures appear inside enemy operations; name of Saren Act 2 – Phantom War M16–M35 Global operations, Vex

becomes direct target Ghost Council's full global supply chain; Vex's past is exposed Act 3 – Zero Hour M36–M50 Moral collapse, branching endings The Purge Engine; final choice 3 Endings (Detailed) 1. Patriot Ending – Kian destroys the truth evidence. Ghost Council is quietly purged by a loyalist faction. Thorne and Chen are arrested, but the public never knows. Kian is reinstated but haunted. Final shot: Kian alone in a rainy military cemetery, placing a coin on a grave. Vex's voice: "We saved the system. But did we save ourselves?" 2. Truth Ending – Kian leaks all evidence to global media. Mass protests, military collapse, Ghost Council members flee. Kian's squad goes into hiding. Final shot: Vex and Kian in a remote cabin, watching a news report of revolution. Vex: "Was it worth it?" Kian: "Ask me in ten years." 3. Ghost Ending – Kian and Vex disappear with the data key. They hold it as leverage. The system continues but they become ghosts. Final shot: a hidden server room, Vex inserts the key, a countdown begins. Freeze frame. Voiceover: "Zero Protocol... activated." (Sequel hook.) 4. CHARACTER BIBLE (Aura & Voice) Kian Raza – "The Silent Storm" Look: Scarred tactical face, matte winter?black armor, no flashy markings. Voice: Calm command tone, short decisive lines. Tagline: "Order before chaos." Vex (Vera Eskander) – "The Ghost in the Wire" Look: Pale from fatigue, headset always on, encrypted terminal glow on face. Beautiful, athletic, long dark hair. Voice: Intelligent, emotionally human, stress?reactive. Roasts, teases, laughs, worries. Stress System (0–100): High stress ? slower callouts, inaccurate counts, voice breaks. Tagline: "Signal is survival." (No tracking risk.) Hex Squad (6 Members) Name Role Signature Line Personal Stake Phoenix Frontline Assault "I break their line." Brother killed by false intel. Rook Overwatch Sniper "One shot, one lane closed." Loyalty debt to Kian. Nyx Infiltration / Silent Kill "If they heard me, I failed." Orphan; Kian is family. Atlas Heavy Weapons / Fortification "Hold here. Nobody crosses." Old unit sacrificed by Ghost Council. Cipher Field Tech / Electronic Warfare "Their network is my weapon." Mentor silenced by Ghost Council. Saint Combat Medic "Stay with me. Breathe." Moral duty to fix broken system. Enemy Ranks (R1–R6) with Aura Rank Name Aura & Behavior Voice Style R1 Militia Nervous, panics, smokes, loud callouts High pitch, erratic R2 Soldier Disciplined, cover use, short tactical calls Professional, calm R3 Ranger Hunter, flanks, uses throwables, minimal speech Low, efficient R4 Specialist Role?defined (jammer/sniper/breacher/medic), force multiplier Role?specific coded comms R5 Elite Adaptive traps, bait tactics, cold taunts Whisper?calm, intimidating R6 Black Unit ("Silent Choir") Myth?level, scripted events only, encrypted comms, perfect sync Mechanical, filtered (Nocturne, Dirge, Hymn, Psalm, Anthem) Colonel Saren (Inside Traitor) Look: Aging, scarred, still wears old?unit patch. Voice: Regretful but resolute. Motive: His son is held hostage by Ghost Council. Confrontation: Mission 47 (Kingmaker Circuit). Player can capture or kill him – affects endings. 5. CORE GAMEPLAY SYSTEMS 5.1 Stealth Detection (Physics?Based) Formula: $\text{Detection} = (\text{Noise} \times 0.5) + (\text{Visibility} \times 0.3) + (\text{Scent} \times 0.2)$ Input Factors NoiseScore Footstep surface, gear rattle, weapon fire, glass crunch, empty magazine rattle VisibilityScore Light level, shadow coverage, muzzle flash, movement speed, distance ScentScore K9 units only – blood trail, scent masking spray, rain (reduces), desert heat (amplifies) Enemy States: Idle ? Aware ? Investigate ? Hunt ? Combat ? Regroup 5.2 Vex Communication System (Human, Untrackable) Channels: Command (Kian–Vex), Squad (Kian–Squad), Silent Signals (hand signs/laser/light codes), Emergency Burst (encrypted ping) States: Clear ? Degraded ? Jammed ? Compromised (jamming affects intel, not her location) Long transmissions: No triangulation risk (removed)

Vex Stress: Rises in combat; affects intel accuracy and voice tone.

5.3 Squad Lifeline (Full Squad Wipe Only)

States: Alive ? Downed ? Stabilized ? Recovering ? Dead
Critical Rule: If at least one squad member is alive, mission continues. If the last standing member goes down, all die immediately – mission fails.
Revive: Drag/carry, field surgery (bullet extraction, bandage), then recover over time.

5.4 Player Movement & Advanced Moves

Move Input Stamina Cost
Weapon Modifier
Slide Sprint + Crouch Low Heavy: 50% shorter slide
Vault Sprint + Obstacle + Jump Low Heavy: 30% slower vault
Tactical Lean Q/E in cover None – Corner Peek Hold lean at corner None – Breath Hold Toggle while aiming
Drains slowly Sniping: stabilizes scope; silences breathing from radio
Dodge Step Double?tap direction Medium (4s cooldown) Disabled with heavy weapon

5.5 Weapon Realism & Melee Class Examples

ADS Speed Recoil Movement Penalty
Stealth Signature
Light (SMG/Carbine) MP5, Vector Fast Low None Low Medium (AR/DMR) M4, SCAR Standard Moderate Minimal Medium Heavy (LMG/Launcher) M249, RPG Slow (+40%) High (bracing required) -25%, no dodge step
High Mechanics: Partial vs empty reload (empty takes 1.5s longer)
Weapon jam (manual bolt?clear animation) – chance increased by dirt/heat
Suppressor degradation – gets louder with sustained fire; eventually burns out
Heat buildup – accuracy loss + scope distortion
Tactical sling – weapon stays on body when switched; creates gear noise while running
Melee attack (weapon butt / pistol whip) – available even when out of ammo

5.6 Environmental Object Classes

Class Type Examples
Interaction Level
A – Critical Full physics + gameplay effect Fuel tanks, power boxes, weak walls, alarm panels, vehicles Fully destructible, persistent debris, chain reactions
B – Tactical Limited interaction Doors, lights, cover props, glass panels, barricades Can be opened/broken/hacked; limited debris
C – Visual Cosmetic only Background buildings, distant props Visual damage only; no physics load
Special Physics Events: Chain reaction, electrical arc (water conductivity), ice thinning, structural collapse, glass crunch (noise spike), light beam (bullet hole creates light shaft).

5.7 Biological Realism Effect Condition Gameplay Impact

Cold shiver Arctic – standing still in freezing zone Aim sway increases; requires heat pack or movement
Adrenaline crash Post?firefight calm Stamina recovery temporarily slowed; vision slightly heavy
Muzzle flash blindness Firing in darkness Temporary white?out; Vex auto?dims
HUD Tinnitus Loud explosion in enclosed space Audio muffled; Vex shows visual sound waves on HUD
Thermal vignette Contact with extreme?cold metal without gloves Edge?of?screen frost effect, minor damage
Scent persistence Blood trail from wounded squad member K9 units track at 2x radius; scent masking spray required

6. ENEMY SYSTEMS

6.1 Enemy Rank Distribution by Mission (Full Table)

See attached table in Section 13 (Appendix). For brevity, the distribution is provided per mission with percentages and approximate total lore enemies. (Full table is included in the final document – ranges from 42% R1 in M1 down to 2% R1 in M50, with R6 at 1% scripted events.)

6.2 Active Enemy Caps (Performance?Safe) Difficulty Total Theater Population Max Active On?Screen Reinforcement Wave Size

Easy 600–1,200 14–20 6–8 per wave
Medium 800–2,500 18–28 8–14 per wave
Hard 1,200–5,000 22–38 12–20 per wave

6.3 Reactive AI (No Static Enemies)

Trigger Enemy Adaptation Player Counter?Option Same entry route twice Patrol shifts, extra guard Multiple entry routes always available Player uses stealth consistently Deploys flares, thermal probes Switch to hybrid approach; use counter?thermal gear Player camps a position Suppression + flanking team Reposition; vault/slide to new cover Guard missing (check?in missed) Patrol compression; sector alert rises Speed up objective;

create distraction Player destroys power Manual lantern sweeps; thermal team Use darkness window before they adapt

Squad member wounded / bleeding K9 units follow blood scent Apply scent?masking spray; patch wound quickly 6.4 Replay Evolution System Replay Number Changes Run #1 Default tactical layout Run #2 Patrol routes shift; key objects randomized within zone Run #3 One additional threat type introduced; tighter response timing Run #5+ Full counter?profile based on player's recorded playstyle (stealth/aggressive/hybrid/tech) 6.5 Enemy Ambient Life Idle chatter, complaints, jokes. R1–R3 enemies smoke cigarettes (visual smoke trail, audio cough, lighter click – stealth giveaway). Sleeping guards (night missions), eating rations, weapon checks. Distinct voice per rank (R1 nervous, R2 disciplined, R3 cold, R4 professional, R5 whisper?taunt, R6 machine?filtered). Enemy taunts during combat: "Flank him!", "He's bleeding out!", "Nice try, ghost." 7. FORTRESS MAP DOCTRINE (5 Rings, 4–5 km) Every map is a fortress to be conquered, not an open field. Layer Name Contents Gameplay Role 1 Outer Ring Perimeter wall/fence, patrol towers, sensors, mine/scan belt, 2–3 breach points Initial barrier – defines entry options 2 Middle Ring Barracks, armory, local comm station, choke corridors, rotating patrol loops Main defense – most engagements 3 Inner Core Main objective (vault/server/hostage/command), multi?lock access, high?rank defenders The prize – hardest to reach 4 Undercroft Maintenance tunnels, drainage shafts, silent traversal network, hidden resupply pockets Stealth layer – bypass always available 5 Crown Rooftops, catwalks, sniper nests, AA posts, signal towers Vertical threat – controls sightlines Mandatory per map: 3 infiltration entry points (stealth / hybrid / forced breach) 2 vertical routes 1 hidden intelligence pocket (optional reward)

1 emergency extraction fallback route Multi?cover combat lanes in every engagement zone 1 stealth bypass lane to Inner Core Dynamic event zone (weather shift / power loss / structural change) Mission area display: 4–5 km diameter Boundary warning + return timer 8.

50?MISSION INDEX (with Fortress Names and Story Beats) Each mission follows the fortress doctrine. Below is the mission list with fortress name, biome, core objective summary, and narrative beat. Full 5?ring layouts and objectives are in the design bible. Act 1 – Broken Signal (M1–M15) Mission Fortress Name Biome Core Objective Story Beat M1 Icehold Arctic Prison Island Escape captivity, recover gear, link with squad Betrayed by Saren; first evidence of false orders M2 Sandscour Relay Desert Relay Field Disable relay nodes, copy command packet Ghost Council transmission intercepted M3 Blackfrost Dock Frozen Cargo Port Steal bio-crate, diversion blast Friendly serial numbers on enemy gear M4 Glass Horizon Canyon Canyon Convoy Jam escort, isolate target truck, seize tablet "Operation Ember" false?flag file M5 Nightgrid Substation Urban Power Camera hack, substation sabotage, archive theft Kian's division marked for elimination M6 Echo Block Snow Detention Thermal jam, cell break, prisoner recover Prisoner names General Thorne M7 Green Corridor Forest Highway Mark convoy, checkpoint spoof, disable jammer Documents show "Glass Horizon" corporate front M8 Static Graveyard Desert Ruins Reactivate towers, bunker breach, uplink defend Vex reveals she worked for SIGINT, knows mole's signature M9 Ironfall Docks Storm Harbor Dock breach, dock master capture, ledger hack Weapons shipments to both sides – same supplier M10 Sirocco Node Deep Desert Mine breach, sensor ring disable, AA jam Ghost Council plans to shoot down friendly transport M11 Hollow Bastion Ruined City Wire jam, courier trail, dead?drop recover

Photo of Thorne and Chen shaking hands M12 Frostwatch Glacier Ridge Radar dish hijack, bunker data mirror Friendly aircraft led into SAM zones

M13 Fracture Core Underground Research Dual?key vault, evidence extract "Purge list" – officers loyal to Kian marked dead M14 Burnwater Rain Safehouse Contact stabilize, evidence hack, convoy sabotage Ghost Council accountant gives Vex encryption key M15 Mirror Command Storm Citadel Identity spoof, mirror?server breach Kian's own command building is Ghost Council relay hub Act 2 – Phantom War (M16–M35) Mission Fortress Name Biome Core Objective Story Beat M16 Rustmast Harbor Fog Harbor Steal red ledger Proof of covert war finance links M17 Black Vein Refinery Night Refinery Sabotage fuel command flow Fuel?backed war engine M18 Canopy Relay Rainforest Restore contested comm channel Enemy using K9 squads; Vex stress increases M19 Marble Gate Diplomatic Quarter Secure asset, breach archive Political shielding network M20 Static Vault Subterranean Mirror master packet Vex location triangulation reaches critical M21 Spine Ridge Frozen Pipeline Disrupt fuel spine Cripple cold?theater logistics M22 Iron Trestle Mountain Rail Stop armored train Weapons transit corridor exposed M23 Quiet Glass Biolab Seize sample intelligence Bio?control narrative collapse M24 Black Pulse Metro Kill pulse network, rescue hostages Urban command structure break M25 Storm Crown Cliff Battery Neutralize anti?air Open air corridor for final approach M26 Lattice Docks Mega Shipyard Collapse power lattice Dock blindness achieved M27 Dead Current Offshore Rig Hijack comm?power node Survive vertical siege M28 Phantom Gate Border Hub Spoof identity grid, extract detainee High?value intel on Ghost Council inner circle M29 Shear Dam Mountain Dam Hijack SCADA controls Floodgate leverage M30 Glass Horizon Canyon Basin Trigger convoy trap Capture command tablet with Thorne's signature M31 Iron Perimeter Capital Island Crack defense ring Establish inner?city insertion path M32 Livewire Grid City Power Corrupt power routing Blind enemy surveillance cells M33 Ghost Archive Ministerial Citadel Recover ghost key Clone buried governance records M34 Twin Spires Media Towers Jam narrative control Push verified truth feed M35 Mirror Palace Glass Command Breach mirror server Confirm mole structure; Saren revealed as inside man Act 3 – Zero Hour (M36–M50) Mission Fortress Name Biome Core Objective Story Beat M36 Ember Bunker Burned District Capture rogue directives Sever local control chain M37 Null Crater Frozen EW Crater Restore anti?jam pylons Vex almost cut off permanently

M38 Testament Citadel Tribunal Expose execution files Sanctioned killing architecture M39 Ashen Valley Toxic Freight Halt chemical campaign Secure antidote routes M40 Requiem Tower Financial Island Steal black?fund ledgers Break shadow alliance cover M41 Purge Coast Coastal SIGINT Stop false targeting cycle Recover purge control M42 Static Cathedral Thunder Comm Hijack storm uplink Destabilize command traffic M43 Oath Undercroft Memorial Uncover betrayal dossiers Oath?bound units compromised M44 Silent Court High Court Break legal strike framework Seize evidence chain M45 Snow Haven Safehouse Island Defend Vex during siege Vex almost dies; squad protects her M46 Sinkhole Gate Desert City Breach council vault Expose core authority map M47 Kingmaker Spire Corporate Arcology Seize manipulation circuit Confront Saren; choose his fate M48 Ash Caldera Volcanic Fortress Destroy kill?switch protocol Prevent global deployment M49 Frozen Array Ocean Ice Upload final truth packet Elite counterwave defense M50 Zero Citadel Multi?Layer Destroy purge engine, decide ending Final choice; three endings 9. MULTIPLAYER MODES – "Shadow War" Mode Description Players Shadow War (Battle Royale) PUBG?style, last squad standing Up to 120 (scaled by tier) Co?op

Raids 4 players vs AI fortress 4 Deathmatch Classic Team Deathmatch Up to 32 Vex Hunt One player is Vex (invisible), others hunt 6–12 Intel Run Capture the flag + hacking terminals Up to 16 Horde Mode Waves of AI enemies on fortress map 4 Features: Squads of 4 players, friends can invite via Steam / Epic. Legendary name displayed above character. Vex operator role (optional) – one per squad, untrackable, abilities: drone recon, hack, supply drop. Proximity voice chat (enemies can hear you) + team voice chat. PvPvE: AI enemy squads roam the map, drop loot. 10. HARDWARE SCALABILITY (4 Tiers – No Visual Cut)

Tier Hardware FPS Target Active Enemies (SP) Player Count (MP) Visual & Audio Tier 1 (Legacy) Budget CPU / faulty fan 30 14–20 32 720p–1080p, 2D sprites, static lighting, 16 kbps audio, 8 voice channels Tier 2 (Advanced) Mid-range 60 20–36 48 1080p–1440p, dynamic shadows, 32 kbps, 16 channels Tier 3 (Sovereign) High-end 60–90 36–80 80 1440p–4K, volumetric, full physics, 64 kbps, 32 channels Tier 4 (God-Mode) RTX + i9/Ryzen 9 90–120+ 80–250+ 120 4K–8K, ray-tracing, molecular destruction, 128 kbps, 64 channels Zero Visual Removal Policy: No feature removed on lower tiers – only quality/density scales. Thermal Governor: Background thread monitors CPU temp; >82°C reduce density; >86°C force Tier 1; >90°C emergency pause. Startup Hardware Diagnostic: Checks CPU ISA, GPU VRAM, thermal headroom, fan RPM, clock stability, RAM ? outputs SYS_100 (healthy) or error codes. 11.

AUDIO & MUSIC Adaptive Music Layers Layer Trigger Style Ambient Base Always Location-specific environmental tone Stealth Pulse Stealth phase Low percussion, minimal notes Suspicion Layer Enemy Aware/Investigate Rising strings, unsettled Combat Layer Enemy Hunt/Combat Heavy rhythm, fast percussion Critical Layer Player low HP / near wipe Discordant, urgent Aftermath Layer Post-combat, no threats Emotional cool-down Full Voice Communication (Always Present) Squad banter: Roasting, trolling, taunting, shouting, making fun, dark humor – every mission. Enemy comms: Distinct voice personalities per rank (R1 panicked, R6 machine-like). Idle chatter, smoking, complaints. Vex: Full range – roasts Phoenix, teases Kian, laughs, gets worried, flirts subtly. Never trackable. Localization Phase 1: English, Urdu/Hindi, Arabic, French, German, Spanish, Russian, Turkish – full dubbing + subtitles. Phase 2: Italian, Polish, Portuguese (EU/BR), Dutch. 12. WEAPONS & GADGETS Weapon Progression (Unlock by Mission) Class Examples Unlock Phase Role Sidearm USP, Glock, Desert Eagle Default Backup, silent execution SMG/Carbine MP5SD, Vector, Gyrojet SMG M1 onward CQB, stealth-friendly Assault Rifle M4A1, SCAR-L, AK-47, ARC-9 Ion Rifle M3 onward Versatile mid-range DMR Mk14, SR-25, VSS Vintorez M6 onward Quiet precision Sniper Rifle M24, AXMC, Railgun Sniper M8 onward Long-range, bolt-action Shotgun M870, Benelli M4, Flechette Launcher M10 onward Breach tool, CQB LMG M249, PKM, Mini-Grenade Launcher M14 onward Suppression, area denial Launcher M72 LAW, RPG-7, Homing Micro-Missile M20 onward Anti-armor, structural Energy Weapons ARC-9, Pulse Carbine, Plasma Cutter M25 onward Experimental, chain damage Stealth/Non-Lethal Sonic Disruptor, Tranquilizer Rifle, EMP Crossbow M15 onward Stealth takedown, utility Heavy Support Laser Designator, Deployable Auto-Turret, Thermite Spear M30 onward Tactical advantage Attachments (5 categories) Optics (iron, red dot, ACOG, sniper scope, thermal) Suppressor (standard, wet, muzzle brake) Grip (standard, angled, bipod) Magazine (standard, extended, drum, subsonic) Barrel (standard, heavy, lightweight) Gadgets (9 items) Gadget Use Counter-Risk Pulse Sonar Reveals enemies through walls (15m) Can be detected by enemy EW units Thermal Optic Sees heat in smoke/darkness Flares blind thermal EMP Charge

Disables electronics, cameras, drones Disables your own HUD if too close Scent Masking Spray Prevents K9 tracking Must be reapplied after 5 minutes Breaching Charge Silent shaped charge for walls Not truly silent – creates noise Smoke Grenade Vision denial (20 sec) Thermal sees through it Flashbang Temporary blindness + hearing loss Affects squad and player Thermal Charge Melts locks, thin ice Visible light signature, toxic fumes Signal Jammer (Portable) Blocks enemy comms in 10m radius Also blocks Vex Difficulty Economy Mode Resource Multiplier Notes Easy +75% (x1.75) More ammo, meds, gadgets; enemy reaction slower Medium x1.0 Baseline Hard x0.72 Reduced resources, but more hidden tactical caches

13. APPENDIX – ENEMY RANK DISTRIBUTION TABLE (M1–M50) (Full numeric table as provided in earlier messages – included here for reference.)

Mission R1% R2% R3% R4% R5% R6% Total Lore Enemies (approx) M1 42 30 16 8 3 1 680 M2 40 31 17 8 3 1 720 M3 38 32 18 8 3 1 750 M4 36 32 20 8 3 1 780 M5 35 31 21 9 3 1 800 M6 34 31 21 10 3 1 820 M7 33 30 22 10 4 1 850 M8 32 30 22 11 4 1 870 M9 31 30 23 11 4 1 890 M10 30 29 24 12 4 1 920 M11 30 29 24 12 4 1 940 M12 29 29 24 13 4 1 960 M13 28 28 25 13 5 1 980 M14 27 28 25 14 5 1 1000 M15 26 27 26 14 6 1 1050 M16 25 27 26 15 6 1 1080 M17 24 26 27 15 7 1 1100 M18 23 26 27 16 7 1 1120 M19 22 25 28 16 8 1 1150 M20 21 24 29 17 8 1 1180 M21 20 24 29 17 9 1 1200 M22 19 23 30 18 9 1 1220 M23 18 22 30 19 10 1 1250 M24 17 21 31 19 11 1 1280 M25 16 20 31 20 12 1 1300 M26 16 20 31 20 12 1 1320 M27 15 19 31 21 13 1 1350 M28 14 19 31 21 14 1 1380 M29 13 18 32 21 15 1 1400 M30 12 18 32 22 15 1 1420 M31 12 17 32 22 16 1 1450 M32 11 17 32 23 16 1 1480 M33 10 16 33 23 17 1 1500 M34 9 16 33 23 18 1 1520 M35 8 15 33 24 19 1 1550 M36 8 14 33 24 20 1 1580 M37 7 14 33 24 21 1 1600 M38 7 13 33 25 21 1 1620 M39 6 13 33 25 22 1 1650 M40 6 12 33 25 23 1 1680 M41 6 12 32 26 23 1 1700 M42 5 12 32 26 24 1 1720 M43 5 11 32 26 25 1 1750 M44 5 11 31 27 25 1 1780 M45 4 11 31 27 26 1 1800 M46 4 10 31 27 27 1 1820 M47 4 10 30 28 27 1 1850 M48 3 10 30 28 28 1 1880 M49 3 9 30 28 29 1 1900 M50 2 9 29 29 30 1 2000

14. PLAYER CUSTOMIZATION – INDIVIDUAL FEATURE TOGGLES

In the Options menu, players can independently enable or disable: Movement Features: Slide, Vault, Tactical Lean, Corner Peek, Breath Hold, Dodge Step, Stamina System, Heavy Weapon Penalty. Weapon Realism: Partial/Empty Reload, Weapon Jamming, Suppressor Degradation, Heat Buildup, Tactical Sling, Bullet Penetration, Realistic Ballistics. Stealth & Detection: Noise Detection, Visibility Detection, Scent Detection (K9), Shadow Detection, Last Known Position, Reactive AI, Replay Evolution, Alert Escalation. Squad & Lifeline: Squad Revive System, Morale System, Full Squad Wipe Failure, Squad Banter, Friendly Fire. Vex Features: Vex Stress System, Full Voice (Roast/Tease), Signal Jamming, Vex Intel on Enemies, Vex Hacking Support. Physics & Environment: Destructible Objects, Chain Reactions, Persistent Debris, Weather Effects, Biological Effects, Dynamic Time of Day. Enemy Difficulty Scaling: Accuracy, Health, Numbers, Reaction Time, Tactics, R6 Spawn Rate. Visual & Audio Accessibility: Blood & Gore, Screen Shake, Motion Blur, Subtitle Size, Colorblind Mode, High Contrast Enemies. Performance & Hardware: Hardware Tier, Thermal Governor, Max Active Enemies, Destruction Quality, Shadow Quality, Audio Voice Channels. Presets: Classic (IGI?like), Modern (Full Zero Protocol), Custom.

15. CONCLUSION – WHY THIS GAME DESERVES TO BE MADE Zero Protocol is not another generic military shooter. It is a tactical siege game where every mission is a fortress to be conquered, every enemy has personality and rank, and your squad is not disposable – they are brothers with backstories and banter. The human?centric Vex brings

emotional stakes rarely seen in the genre. The 4-tier scalability ensures it runs on budget laptops and maxes out \$5000 PCs. The 50-mission campaign offers 30–45 hours of intense, replayable stealth-action with three distinct endings.
